EVALUATION OF CONTENT

- 25X1A 1. From March 1947 to the end of June 1947, USIVA shipped 690 railroad carloads of scrap iron and steel to Switzerland via the Sankt Margrethen station. ~~Comment:~~ This station is apparently used to avoid the main border crossing point at Buchs.)
2. This scrap was sold to an unidentified Swiss firm by USIVA. Yuzhtrans and Schenker and Company helped handle the shipments.
